EDNA FAURA-AGUSTIN
Schools Division Superintendent
City of Biñan, Laguna

Dear Ms. Agustin:

PhilHealth Calamba Local Health Insurance Office (LHIO) would like to express our sincerest appreciation for the support that Division Office of Calamba has given to our agency throughout the years.

With the passage of Republic Act No. 11223 or the Universal Health Care (UHC) Act, PhilHealth aspires to achieve its goal that “Every Filipino shall be granted immediate eligibility and access to promotive, preventive, curative, rehabilitative and palliative health services without causing financial hardship and prioritizes the needs of the population who cannot afford such services”.

To ensure that all Filipinos are guaranteed equitable access to quality and affordable health care goods and services and protected against financial risk, PhilHealth developed the Konsultasyong Sulit at Tama Package or the PhilHealth KONSULTA Package. PhilHealth Konsulta Benefit covers all Filipinos and covers individual-based health services including initial and follow-up primary care consultations, health screening and assessment and access to selected diagnostic services and medicines.

There are three major benefits in PhilHealth Konsulta Package, these are health professional services, laboratory tests and supply of drugs and medicines as may be necessary. For health professional services, this includes consultation and case management for any conditions, including individual health education that can be managed by a Primary Care Physician. The Primary Care Physician shall also provide preventive health services such as health screening and assessment according to your life stage and health risks. In case laboratory or diagnostic examinations are not available in the facility, your Konsulta Provider may provide assistance in accessing services in subcontracted or partner facilities, and referral to specialty and higher level of care if necessary.

Qualified beneficiaries are also entitled the following (Please see attached Annex A1 and A2) **based on prescription of Primary Care Physician of Konsulta Provider:**

- 13 laboratory tests
- drugs and medicines for common conditions such as asthma, colds and coughs, pneumonia, diarrhea, urinary tract infection, hypertension and diabetes

To become a qualified beneficiary of PhilHealth Konsulta Benefit, every Filipino must register with their preferred PhilHealth Accredited Konsulta Facility. In the City of Binan under your jurisdiction, the PhilHealth Accredited Konsulta Provider are the following:

- a) City Health Office-I, Biñan
- b) Biñan City Health Office II
